

# DUMUZAS®

DUMUZAS  
UNBS  
UGANDA BAATI

Dumuzas is a revolutionary brand made from high tensile steel that has a protective coating of 55% Aluminium, 43.4% Zinc and 1.6% Silicon (ZINCAL), resulting in a product with an extremely long life. Now with extra thin organic coating (TOC) . The New dumuzas has increased durability.

## Features and Benefits:

- Lasts longer than a zinc galvanized product of the same coated thickness.
- Offers up to 4 degrees cooler interiors.
- Has a shining beautiful silver finish.
- It is very easy to install.

## SPECIFICATIONS

3-Dimensional profile

**DUMUZAS** is a sinusoidal profile with 11 corrugations and a pitch (distance between any repeated portions) of 3 inches (76.2mm) hence its name; and is the oldest commonest of all profiles; mainly used for roofing and walling especially in domestic applications.

## BENEFITS

Cost Efficiency

Long Lasting

Light Weight

Secure

Heritage

Repair Free

Shining Silver Finish

Engineered Roofing

Performance

Speed of Installation  
& Minimized Wastage

Fire Resistant

## Going Green

Allows for water harvesting from rainwater – Once installed collection of rainwater runoff has many benefits for domestic and agricultural use.

Disposal & Recycling – Disposal if needed will be by the standard steel recycling process of recycling in a steel recovery plant into new steel products. This is simple and the greenest way to build.

Manufacturing process - majority of the water used in the manufacture of this material is recycled.  
Air and fume emissions comply with the environmental regulation laws.
