Roofing Material	ULTRA-SPAN LIGHT GAUGE STEEL TRUSSES
Developer	SUPERIOR HOMES KENYA LIMITED

Special Features: Superior Homes (Kenya) is a real estate developer that has developed the open-plan Green Park Estate at Stony Athi. The Estate (whose construction started in 2007) is planned to have more than 700 housing units, schools, green zones, sports and recreational facilities as well as a shopping complex.

Safal Building Systems Ltd. won the 4th Phase of the project and will be undertaking roof trusses for 200 houses with Ultraspan brand of Light Gauge Steel trusses. Safal Building Systems Ltd. were initially awarded 3 units which were part of their sample flats and our ability to supply and install the roof trusses in a timely manner has won us the entire phase 4. This, once again is a testament to the versatility of Ultraspan Light Gauge Steel trusses and Safal Building System Ltd as the logical go-to Supplier for this technology.
